INDIA ARMY ORDER

BY

HIS EXCELLENCY THE COMMANDER-IN-CHIEF
IN INDIA.

Army Headquarters, Simla the 20th January 1914

Officers in India for
mainten. 4 of India Army
Order 1 (issued as Special
India Army Order dated 10th March 1912), as amended by
India Army Order No 575 dated 20th October 1913, is
revised as follows —

4 Under no circumstances should a soldier's name appear more than once on an Army Form O-1796 in respect of the same allotment

The issue of a second Army Form O-1796 should be restricted to cases of amendment in the *rate of allotment* or alteration in *date of commencement* thereof. In such cases a red ink note, calling the attention of Army Paymasters conspicuously to the nature of the amendment, should be made in the last column of the form

Changes such as cessation of payment due to any cause, such as death, discharge in India, transfer to England for discharge, desertion, etc., and alteration in the payee's address, should be notified by means of a separate memorandum

The alterations in the allotment referred to above, in whatever manner notified, should at once be communicated to the Army Paymaster concerned by the Officer Commanding, invariably through the Divisional Disbursing Officer or Deputy Controller of Military Accounts, as the case may be. In no circumstances should such communications be sent *direct* to Army Paymasters by Commanding Officers, Squadron or Company Commanders, as this leads to misunderstandings and duplicate reports.

When a soldier is discharged, deserts, or dies, the full amount of the allotment, which will probably be made to his family before the notification of discharge or desertion or death can be received by the Army Paymaster in the United Kingdom, will be recovered by the Officer Commanding from the man, or through his non-effective account, as the case may be.

HIS EXCELLENCY THE COMMANDER-IN-CHIEF

Army Headquarters, Simla, the 3rd March 1914.

Before relinquishing the command of the Army in India, I wish to assure all ranks of my deep and grateful appreciation of the loyal and ungrudging support extended to me during the past 1½ years without which the high moral and physical standard now reached could not have been attained.

I am well satisfied that, during my term of office, steady progress has been made in rendering the Army in India an efficient instrument for war.

After 47½ years' service, I bid farewell to all my comrades, British and Indian with the greatest regret, but with full confidence in their future.

Although separated by long distance my thoughts will ever turn to this country where I have lived so long, and to my many good and staunch soldier friends, whose welfare will always remain a matter of deep interest to me.

ANNEXURE TO SPECIAL INDIA ARMY ORDER
DATED 12th MARCH 1914

MILITARY TRAFFIC RULES AND RATES

*(Will be embodied in Army Regulations, India, Volume X, as an
Appendix)*

MILITARY TRAFFIC RULES AND RATES

1 Special types of vehicles not guaranteed—The military authorities will take and pay for vehicles actually supplied irrespective of their size or capacity, it being understood that the supply of vehicles of any particular size or capacity cannot be guaranteed

2 Handling—The military authorities are responsible for and perform all handling, both loading and unloading, at their cost except in the case of goods traffic booked at and to railway stations at the $\frac{1}{3}$ rd pie per maund per mile rate, and in the case of transshipment of goods and baggage at junctions and from railways to ferries and *vice versa* in which cases it will be handled by the railway staff

When railway cranes are used in lifting heavy stores, the charges laid down in the tariff may be recovered by the railways on credit notes supported by a certificate from the military officer concerned. Charges on account of handling military stores conveyed in wagon loads are not recoverable on credit notes

NOTE—“Junction” includes a railway station at which a military siding takes off in respect to traffic loaded to and from the siding

3 Risk—All military stores, baggage, etc., carried at vehicle rates or at the rate of $\frac{1}{3}$ rd pie per maund per mile shall be at Government risk, Risk Note (Railway Form B) need not, therefore, be executed for consignments sent by, or on behalf of, Government at these rates

Risk notes must be given for traffic such as coal, explosives and other dangerous goods for which tariff rates apply when owner's risk rates are charged

4 Application of the rules—These rules and rates do not apply to journeys performed by officers and others who draw travelling allowances under the provision of Army Regulations India, Volume A, nor to military stores, the property of Civil Departments and Military Works Services (*i.e.*, stores consigned to garrison engineers or officers commanding Royal Engineers), nor to stores consigned to and by regimental canteens messes and cantonment magistrates, nor to goods or live-stock *not the property of Government in the Army Department at the time of despatch*

NOTE—“Army Department” includes Navy and Marine

These rules and rates only apply to:—

- (a) Military traffic booked on warrant or credit note.
- (b) Military traffic debitable to the training grant which is paid for in cash and despatched by an official of the Army Department.
- (c) Imperial Service troops when moved at Government expense and despatched by the inspecting officer.
- (d) Stores the property of Government consigned to and by volunteer corps.
- (e) Safety cartridges shall be treated as other military stores when they answer the following definition —

The expression "safety cartridges," as used in these rules—

- (i) means a cartridge for small arms, the case of which can be extracted from the small arm after firing, and which is so closed as to prevent any explosion in one cartridge being communicated to other cartridges; and
- (ii) includes a rifle calibre machine gun cartridge if it is as described in clause (i) whether it is for use with a machine gun having chambers identical with those of rifles or with a machine gun having special chambers.

Provided that the diameter of the cartridge in either case (i) or case (ii) does not exceed one inch.

- (f) Kerosine oil, non-dangerous, *i.e.*, flashing at or above 76° Fahrenheit will be charged as goods traffic at military rates, *i.e.*, ½d per maund for wag-
ing
same rate as for "other dangerous goods," *i.e.*, at tariff rates.

- (g) The term "Explosives" includes all "other dangerous goods" other than kerosine oil, non-dangerous, *i.e.*, flashing at or above 76° Fahrenheit, and safety cartridges.

NOTE —For definition of "Explosives" see Indian Railway Conference Association Red Pamphlet

6 Calculation of charges (a)—The charges on all vehicles charged at the vehicle rate shall be rounded off to the nearest rupee. The charge shall be reckoned on each vehicle thus, 18 four-wheeled metre gauge vehicles for 300 miles

$300 \times 0.76 = \text{Rs } 65.10.0$ or $\text{Rs } 65.00$ For 18 vehicles $\text{Rs. } 66 \times 18 = \text{Rs } 1,188$

(b) Freight charges on traffic charged at the $\frac{1}{2}$ rd pie per maund per mile rate shall be calculated as under—

In the rate per maund, fractions of a pie under one-half shall be omitted and all others be reckoned as one pie. In the total charges for each consignment, fractions of an anna of 6 pies or more shall be charged as one anna and all others omitted.

(c) In through booking the charges for the through distance from start to destination shall be calculated on the number of vehicles used by, and at the rates applicable to the despatching railway. Where there is a break of gauge, or a ferry, the requisition should be based, and the accommodation provided, on the military carrying capacity of the vehicles supplied at the starting station.

EXAMPLE—Six metre-gauge bogie coaching vehicles are booked from Neemuch to Rawal Pindi. The charge will be 42 annas per mile on the distance from Neemuch to Rawal Pindi irrespective of the higher scale of charges in force for broad-gauge vehicles, or of the number of vehicles required for the same service on the broad-gauge portion of the journey.

INDIA ARMY ORDER

BY

HIS EXCELLENCY THE COMMANDER-IN-CHIEF
IN INDIA.

Army Headquarters, Simla, the 12th March 1914.

Passages—Railway—The rules and rates for the conveyance of military traffic by rail in the annexure to this order have been approved* by the

*Army Department No 8313-11 (Q M G-1) dated 11th November 1913

Government of India

2 They will come into force from the 1st April 1914.

†India Army Orders—

85 of 1911.

32 of 1912

3 All previous orders† and circulars on the subject are hereby cancelled.

1, 9 and 10 of the rules
option of despatching
or goods at vehicle or
ollowers must be sent at
ll the vehicles provided

The contract or tariff rate only applies to those insufficient to fill complete vehicles. Similarly, the small consignment rate only applies to goods insufficient to fill complete vehicles provided by the railway.

Families in ordinary trains will be charged at tariff rates unless accommodation is reserved for them, when vehicle rates will be charged (See schedule of rates items 7, 8, 9 and 10.)

5 Despatching officers should see that heavy and light bulky articles are suitably loaded together, so that vehicles are fully utilised.

6. To avoid unnecessary expense, small consignments of stores will only be sent by passenger train when circumstances render it essential. The weight of each parcel so sent will be separately entered in the credit note.

7. It has been found in practice that the entries in column 4 of the Railway Warrant*
 *India Army Form T-1707. Form C are usually the same as those in column 3, and thus do not provide the information necessary for audit officers to check the charges made by railways. Column 3 will show the actual number of each class of person travelling, of animals and ordnance, and maunds of equipment, stores and baggage. Column 4 will show the actual accommodation provided by the railway. It is essential, therefore, that column 4 should be correctly filled in; the officer superintending the despatch of troops will be responsible that this is done; in the case of individuals and small parties, the individual himself or the officer or non-commissioned officer in charge of the party will be responsible.

Similarly, in the case of credit† notes, the despatching officer will be responsible that column 9 (Wagons, etc., supplied) correctly shows the accommodation provided.
 †India Army Form T-1711.

As the railways are unable to guarantee any particular class of vehicle, the charges will be based on the accommodation actually provided and not on any that may be requisitioned.

8. On special troop trains, regimental private stores in excess of the authorised scales come under the vehicle rates, and will be paid for in cash at the starting station as laid down in paragraph 190, Army Regulations, India, Volume X. On ordinary trains, all regimental stores not the property of Government will come under the ordinary public tariff rates.

9. When there is spare accommodation in horse boxes on special troop trains, not required for authorised chargers, officers of the unit or units travelling on the train may be permitted to make use of it for their private animals in order of juniority at the discretion of the Commanding Officer.

10. Consignments under contracts referred to in India Army Order 660, dated 24th November 1913, will be regulated as follows —

- (a) Goods intended for military purposes under contracts which do not expire before the 1st of April 1914, and which are not the property of Government in the Army Department at the time of despatch, may be despatched at the vehicle or military traffic rates until the contract expires.

- (b) Goods intended for military purposes under new contracts which come into operation before the 1st April 1914 and which are not the property of Government in the Army Department at the time of despatch will come under public tariff rates.

11 Contract rates are those defined in paragraph 157 and Appendix V Army Regulations India Volume X

146. Extension of Operations of Divisional Disbursing Offices.—With the sanction of the Secretary of State the Government of India have decided to extend the operations of the Divisional Disbursing Offices in India (I. A. O. 285 of 1908) so as to provide for the preparation and payment by those offices of claims for pay and allowances of staff and departmental officers, units, establishments and followers of the Indian Army, on the same principles which are now applied to the accounts of British troops. The system to be followed on field service will be practically the same as in cantonments, subject only to such minor modifications as the special circumstances may demand.

2. Stated briefly the following is the procedure to be observed:—

1.—Bills for salaries of staff and departmental officers.

The preparation of the claims of officers for pay and allowances will be taken over by the Divisional Disbursing Officer who will inform each officer of the correct amount due to him until further notice. This sum will be paid monthly and the officer will submit a simple receipt to the Divisional Disbursing Officer. All officers will, as now, have complete discretion to draw their pay from the Divisional Disbursing Officer personally or through their agents.

All notifications in Gazettes, India Army Orders, Divisional and Brigade Orders, etc., affecting the pay and allowances of officers, will be taken into consideration by the Divisional Disbursing Officer, and statements of alterations in the amount of pay and allowances admissible will be sent from time to time to the officers concerned.

11.—Pay bills of office establishments, departmental warrant and non-commissioned officers, etc.

As in the case of staff and departmental officers, the preparation of bills by the officers in charge of the offices or establishments concerned will not be necessary, as this work will be undertaken by the Divisional Disbursing Officer. Half-yearly statements will be sent to the officers in charge showing in detail the pay and allowances due. The

Divisional Disbursing Officer will take cognizance of all orders affecting the pay and allowances of the establishments, etc., sent to him weekly by the officers in charge, and will prepare a special simplified form of pay bill for each month which, together with a cheque in payment thereof, will be sent to the officers concerned

146

10th Mar
1914

III—Accounts of Indian Units

Instead of pay lists and muster rolls being prepared monthly by a unit, the Divisional Disbursing Officer will prepare a statement for each squadron, battery or double company once every six months showing in detail the pay and allowances due to every individual, which will be sent to the squadron, battery or double company commander. Copies of regimental and other orders, which affect pay and allowances, will be sent weekly by units to the Divisional Disbursing Office where a simplified pay bill will be prepared each month showing the variations from the general statement referred to above, and the total amount due to the squadron or double company. This pay bill together with a cheque for the full amount will be sent to the squadron, battery or double company commander. Acquittance rolls will be kept up and retained by the Officer Commanding, as at present.

The claims of an officer will be paid direct to his agents if required and a request to this effect is received through the agents otherwise a cheque will be sent to the Adjutant with a monthly pay list which will be prepared separately for officers, education establishments hospital establishments etc.

IV—Miscellaneous claims, such as orphan allowances to recognised institutions, volunteer capitulation allowances, etc

Bills will be prepared by the Divisional Disbursing Officer on information furnished by the officers concerned, to whom the bills and cheques in payment will be sent.

3 The new procedure has been designed to afford relief to staff, executive and regimental officers in regard to account duties, but the Divisional Disbursing Office should

147 be kept fully informed of all changes affecting pay and allowances and no laxity should be permitted in the transmission of extracts of orders, etc., to that office.

18th Mar
1914.

4. The scheme which has been on trial in the Poona Division will shortly come into force in other divisions of the Army and General Officers Commanding are directed to afford every assistance to the Military Accounts Department in giving effect to it. Detailed instructions will be issued by the Controllers of Military Accounts when the new procedure is about to be introduced, and officers can obtain assistance in all cases of doubt from the Directorial Disbursing Office.

5. The question of applying the same system to officers and establishments whose accounts are dealt with by the Controller of Military Supply Accounts will be considered in due course.

147. Forms.—India Army Order No. 489, dated 31st August 1908, is republished for information :—

It is notified for the information and guidance of all concerned, that the printing of additional matter on Army and India Army Forms issued gratis (e.g., the name and designation of the officer from whom a letter emanates in the case of India Army Form Z-2010), is strictly prohibited.

152 Organization—Military Accounts Department—With the approval of the Secretary of State the Government of India have sanctioned the introduction of the following measures from the 1st April 1914, in connection with the reorganization of the Military Accounts Department in India

2 The Northern Eastern and Western Circles of military accounts will be abolished, and the ten divisional military account centres in India will be reconstituted as self contained offices in matters of account disbursement and audit, each under a Divisional Controller of Military Accounts, who, besides being the financial adviser of the General Officer Commanding, will be an independent account and audit officer and in this respect subject only to the control of the Military Accountant General the Comptroller and Auditor General, and the Finance Department of the Government of India. Each divisional account office will also be an independent office for the purpose of exchange accounts

3 The Divisional Controller of Military Accounts will be the responsible audit officer of the Division and will be in administrative charge of both the audit and disbursing branches of his office and on his staff there will be one or more Assistant Audit Officers and a Divisional Disbursing Officer with one or more Assistants. His relations with the Military Accountant General, the Comptroller and Auditor General Army Headquarters, the Army Department and the Finance Department will be the same as those of the present Circle Controllers of Military Accounts

4 An important duty of the Divisional Controller will be that of Financial Adviser to the General Officer Commanding and he shall endeavour to establish close co-operation with the General Officer Commanding and the staff and executive officers of the division in all matters affecting financial rules and accounts

The modifications in the organization of the Military Accounts Department have, therefore, been designed to allow the Divisional Controller a sufficient number of officers and members of the gazetted staff to relieve him of matters of minor importance and thus enable him to devote a large measure of his time and attention to the subject of financial administration. Executive officers of the army will be able to personal interviews with military account officers at each centre.

5. All periodical statements, accounts, returns, etc., rendered under the existing system by Deputy Controllers of Divisions to Circle Controllers, and by the latter to the Military Accountant General, the Comptroller and Auditor General, the Government of India and the Home authorities, will be rendered direct by Divisional Controllers. Reports, etc., prescribed under existing rules for submission by executive offices, etc., to Circle Controllers, will be submitted to Divisional Controllers instead.

6. To provide for an effective test-audit and examination of the work of the divisional account offices, two inspecting officers will be appointed, one for the Divisional Account centres in the Northern Army with headquarters at Rawalpindi, and the other for the centres in the Southern Army with headquarters at Poona; the inspectorships will be held by senior officers of the Military Accounts Department who will be designated "Military Deputy Auditors General". These officers will periodically examine and test-audit the accounts of every Military Account centre, a biennial inspection and test-audit of the accounts of the office of the Controller of Military Supply Accounts being also undertaken by one of them.

7. The Military Deputy Auditors General will not exercise any powers of administration over the divisional or sub-divisional offices. They exercise any departmental duties of the officers, establishments, etc., in connection with appeals against audit objections and like matters, their duties being confined ordinarily to the inspection of military account offices, which they will carry out under the orders of the Military Accountant General and the Government of India.

8 The constitution of the office of the Controller of Military Supply Accounts, Calcutta will remain unchanged, but the designation of that officer will be altered to "Senior Controller of Military Supply Accounts", and an officer will be appointed under him who will be designated "Junior Controller of Military Supply Accounts"

153. Correspondence—Attention is invited to India Army Order No 232 of 1913, as it has been brought to notice that Code words taken from the "Government Telegraph Code" are sometimes used when communicating with the India Office, London

The "Indian Word Code" (latest edition) is the *only* Code (excluding cypher) that should be used when telegraphing from India to that Office

154 Widows and Orphans—In continuation of India Army Order No 570 of 1913 the following is added to the list of recognised institutions under the Shelter Scheme which forms an annexure to India Army Order No 184 of 1910 —

168. Dress—Officers of the Indian Army.—With reference to the changes in dress contained in amendments to the Dress Regulations for the Army, 1911, published with Army Order No. 279, dated the 1st August 1913, the Government of India have approved of the following changes being made in the dress of officers of the Indian Army and Indian Medical Service:—

Field Boots.—Brown field boots as described in the annexure to this Order may be adopted by general officers, staff officers and by officers of Indian units at option, for

wear in service dress in place of leggings, but all the officers of a unit must be dressed alike in this respect

169

30th Mar
1914

Gorget Patches—Gorget patches of the description contained in the annexure to this Order will be adopted for wear with the service dress of all officers and the officers enumerated in paragraph 83, that garment.

Service Dress Jacket—The pattern of service dress jacket described in the annexure to this Order is introduced in place of the existing step collar pattern jacket described in Army Regulations, India, Volume VII, paragraph 31

Collars and ties as prescribed in that paragraph will continue to be worn with the new pattern jacket

Units in which the Prussian collar pattern (i.e., closed at the neck) service dress wear that pattern, but not at present prescribed in Army Regulations, India, Volume VII, paragraph 31, khaki

Spurs—Steel—A light hunting spur is introduced in lieu of the present steel jack spur for wear with butcher boots, field boots and ankle boots, steel chains and black straps will be worn with black boots, and steel chains, brown straps and shields with brown boots

Specially authorised patterns (see Army Regulations, India, Volume VII, paragraphs 61, 69, 72, 73, 80, 91, 93, 98, 99, 103 and 104), will, however, continue to be worn as at present

2 It is to be clearly understood that officers are not to be called upon to provide themselves with the new patterns referred to above until the articles which they are to replace and which are now in possession are worn out.

3. The regulations will be amended in due course.

169 Drill and Instruction Musketry—With reference to Musketry Regulations, Part I, paragraph 336, and Army Regulations, India, Volume II, paragraph 809, to enable adjustments to be made in measurements which the quarterly

tests prove to be inaccurate, steps will be taken, commencing with the second course of the current year, to train British officers selected to attend machine gun courses at schools of musketry, in the adjustment of mekometers.

2. Acting under the orders of General Officers Commanding Brigades, officers so trained will adjust all inaccurate mekometers in their brigades, but those instruments requiring repairs, other than the simple tightening of screws, will, as hitherto, be sent to Cossipore.

3. Inaccurate mekometers from stations where there is no qualified adjusting officer quartered, will be sent for adjustment to another station in the brigade.

4. General Officers Commanding will arrange that, in every station where mekometers are to be adjusted, the range of some suitable object is accurately determined. The minimum distance from the mekometers under adjustment to the object to be 1,400 yards; wherever possible, the distance should be 2,000 yards.

5. When the local adjustment fails to give satisfactory results, the adjusting officer will despatch the instruments to Cossipore.

170. Promotions, Non-Commissioned Officers, British Cavalry and British Infantry.—With reference to paragraph 525, Army Regulations, India, Volume I, (as amended by October Appendix 119, India Army Orders, 1913), it is notified for information that Army Order No. 31, dated 1st February 1914, placing certain units under orders to leave India during the relief season 1914-15, was received at Army Headquarters, Simla, on the 9th March 1914.

171. Treasury Receipts.—The Comptroller and Auditor General has noticed several instances of delays in adjustment of amounts credited in the Civil Exchange Accounts with the Military owing to failure on the part of individuals paying money into Civil Treasuries on the authority of Military Receivable Orders (I.A.F.A.-507) to send the treasury receipts to the officer issuing the Receivable Order.

2. The attention of all officers authorised to issue Receivable Orders (see Article 470, Civil Account Code) is therefore drawn

to the foot-note instructions in the Receivable Order and
 * *Vide* Article 471, Treasury receipt* forms, and to the
 Civil Account Code responsibility that solely rests on them
 in the matter of their insisting upon the prompt submission of
 these receipts to them

172

30th Mar
1914

Special steps should accordingly be taken by officers concerned to secure these receipts without delay in future; and officers, other than those belonging to the Military Accounts Department, receiving such Treasury receipts should, immediately they are received, forward them to their respective Account Officers for adjustment

Item 70 (iv) Column VI, (Divisional Commander) In the second line of item (iv) after the words "permission to resign" insert the words "should be submitted to the Adjutant General for the orders of the Commander in Chief"

173 Divisional and Brigade Boundaries—In line 3 of India Army Order 93, dated 16th February 1914, for "1906" read "1907"

174 Pay and Allowances—Indian Army—The Government of India having decided
 Army Department letter No 19215 1 (A G 5) dated 7th March 1914 that the intention of the rules in paragraphs 125 and 126, Army Regulations India, Volume VI is that frontier kit money and frontier clothing allowance should not be admissible during the same year, the following amendments to these regulations will be published in due course in quarterly Appendix to India Army Orders—

Paragraph 126 (b)—In the fourth line for the word "drawn" substitute "admissible under clause (a) above," and insert the following as a note to this sub-paragraph—

"Note—In cases where frontier clothing allowance is drawn and when the recipients subsequently, within the same year, qualify for frontier kit money, the amount drawn on account of the former will be refunded on receipt of the latter"

ANNEXURE TO INDIA ARMY ORDER No 381 OF 18TH JULY 1914

Corrections to Army Regulations India, Volume II

Paragraph 237 is reconstructed as under —

237 (a) Officers are prohibited from visiting Arabia (E of the 40th degree of E longitude), Mesopotamia, Persia Afghanistan, the Gilgit Agency, Nepal, Tibet Bhutan, and the trans frontier territory in Burma or Assam, without the permission of the Government of India. Applications must be made to the Chief of the General Staff at least two months prior to date of starting. Officers desirous of entering China by crossing the Burma-Chinese frontier must obtain the sanction of the Government of Burma.

Note. The sanction of the Government of India is not necessary in the case of officers proceeding to Nepal to visit the Resident at his installation.

(b) Officers are prohibited from visiting Russian Turkistan or Chinese Central Asia without the permission of the Secretary of State for India, obtained through the Government of India, such permission will not be granted for the purposes of sport or amusement unless some special reasons exist for exceptional treatment. Applications should be submitted in time to reach the Chief of the General Staff not later than 15th August of the year prior to that in which the applicants propose to travel and no applications received after that date will be considered.

(c) All applications under paragraphs (a) and (b) must state (i) object, (ii) proposed route, which must be strictly adhered to, (iii) arms and ammunition proposed to be taken, (iv) composition of party, (v) Christian names of applicants in full, (vi) names of servants. No alterations to the above details will be considered after the submission of the application to the Chief of the General Staff. A special form, obtainable from the General Staff, Army Headquarters, must be filled in to enable arms and ammunition to be imported into Russian Turkistan.

As the number of parties allowed to travel by the Gilgit route is strictly limited to three per annum, applicants to

travel by that route must state whether, in the event of permission to travel *via* Gilgit being refused, they desire to apply for permission to travel *via* Leh and the Karakoram Pass. In this case they should submit an alternative application for this route.

(d) In the cases of countries where passports are required, ordinary passports will be obtained from the local Indian Government or administration concerned, and must receive the *visé* of the consular authority of the country which the traveller proposes visiting.

Necessary steps to obtain the special permission required for Russian Turkistan will be taken by the Secretary of State for India; this permission is not sent to the applicant as a document, but consists of a notification by the Russian Government to the local Russian authorities that the applicant has permission to enter the country.

(e) Application for the special Chinese passport required for Chinese Central Asia should accompany the application to travel in that region, and will be forwarded through the Government of India to the Secretary of State for India who will take the necessary action to obtain the same. Attention is invited to the Rules and Subsidiary Rules of the Issue of Passports.

(f) It is advisable that officers desirous of travelling in any of the countries mentioned above should communicate with the General Staff Branch, Army Headquarters, before sending in their applications for permission.

(g) *Officers will not address Foreign Governments direct*

(h) Officers travelling in the neighbourhood of the Indian frontiers should acquaint themselves with the rules prescribed by the local Government in regard to crossing such "inner lines" or boundaries as are contiguous to the frontier. These rules are published from time to time in the local Government gazette.

INDIA ARMY ORDER

BY

**HIS EXCELLENCY THE COMMANDER-IN-CHIEF
IN INDIA**

As amended by G.O. No. 214 of 1911

Recruiting—Indian Army—The following orders regarding recruitment and discharges in the Indian Army during the year 1911 are published for the information and guidance of all concerned.

Applicable to all units

- (i) Unless specially ordered, a man will be allowed to leave the colours or reserve, unless the Officer Commanding the unit considers that this is for the good of the service.
- (ii) A man will be transferred to the reserve until the ordinary peace establishment with the colours is complete. When this is complete, men can be transferred to the reserve till that is completed to the figure published from time to time.
- (iii) In order to allow of units remaining complete a temporary surplus to colour establishment of 2 per cent will be allowed.
- (iv) The words "Combined Establishment" of a unit will in future mean its ordinary colour peace establishment, plus its reserve establishment as fixed monthly by orders from Army Headquarters.
- (v) The 32 years' rule for retirement need only be applied to those Indian Officers whom the Officer Commanding considers it desirable to remove.
- (vi) Officers Commanding units are to take immediate steps to complete to their "Combined Establishment."

Applicable to Infantry

- (vii) When one or more Battalions of a link are on field service, the extra recruitment necessary to make up the wastage in the field will be distributed as follows:

(viii) Excess over "combined" establishment, where thus allowed, should be transferred as far as possible from men with the colours to men with the reserve, if this can be arranged, by allowing men to transfer from the colours to the reserve if they wish to do so.

(ix) Officers Commanding Battalions from which drafts are taken will endeavour at once to make good the deficiencies thus brought about in the total establishment allotted to them.

(x) The following excess to "combined establishments" is now sanctioned, and every endeavour should be made to work up to it as soon as possible :—

479. Regimental and other Institutions—British.—It having been brought to notice that a remittance for deposit in the Post Office Savings Bank of the United Kingdom, on behalf of a soldier serving in India, was included in a list of family remittances sent to the India Office, instead of in an abstract of remittance of Savings Bank Deposits (I.A.F. A-607), the attention of all concerned is called to the necessity for such remittance being transmitted through the latter abstracts in accordance with the orders contained in India Army Order No. 34 of 1908.

It has also been reported that it has frequently come to the knowledge of the India Office that remittances included in Family Remittance Rolls are really sent to Remitters for deposit in the Post Office Savings Bank on behalf of the Remitters. As this is an inconvenient course for the Remitter to follow, and is, moreover, the cause of a good deal of unnecessary trouble to the India Office, the attention of all concerned is called to India Army Order No. 310 of 1912, and to the facilities which exist for making remittances direct to the Post Office, London (India Army Order No. 31 of 1905).

INDIA ARMY ORDER

BY

HIS EXCELLENCY THE COMMANDER-IN-CHIEF
IN INDIA.

Army Headquarters, Simla, the 21st September 1914

The following Notification by the Government of India in the Foreign and Political Department, is republished for the information of the Army. —

GOVERNMENT OF INDIA.

FOREIGN AND POLITICAL DEPARTMENT.

NOTIFICATION.

No 1936-I A.

Simla, the 16th September 1914

The following gracious message from His Majesty the King-Emperor to the Princes and peoples of the Indian Empire is published for general information —

During the past few weeks the peoples of my whole Empire at home and overseas have moved with one mind and purpose to confront and overthrow an unparalleled assault upon the continuity, civilisation and peace of mankind. The calamitous conflict is not of my seeking. My voice has been cast throughout on the side of peace. My Ministers earnestly strove to allay the causes of strife and to appease differences with which my Empire was not concerned. Had I stood aside when, in defiance of pledges to which my Kingdom was a party, the soil

of Belgium was violated and her cities laid desolate, when the very life of the French nation was threatened with extinction, I should have sacrificed my honour and given to destruction the liberties of my Empire and of mankind. I rejoice that every part of the Empire is with me in this decision. Paramount regard for treaty faith and pledged word of Rulers and peoples is the common heritage of England and India. Amongst the many incidents that have marked the unanimous uprising of the populations of my Empire in defence of its unity and integrity, nothing has moved me more than the passionate devotion to my Throne expressed both by my Indian subjects and by Feudatory Princes and Ruling Chiefs of India and their prodigal offers of their lives and their resources in the cause of the realm. Their one-voiced demand to be foremost in conflict has touched my heart and has inspired to highest issues the love and devotion which, as I well know, have ever linked my Indian subjects and myself. I recall to mind India's gracious message to the British nation of good will and fellowship which greeted my return in February 1912 after the solemn ceremony of my Coronation Durbar at Delhi, and I find in this hour of trial a full harvest and a noble fulfilment of the assurance given by you that the destinies of Great Britain and India are indissolubly linked.

J. B. WOOD,

Secretary to the Government of India.

F. J. AYLMER, *Major-General,*

Adjutant-General in India.

realm. Their one-voice demand to be foremost in conflict has touched my heart and has inspired to highest issues the love and devotion which, as I well know, have ever linked my Indian subjects and myself. I recall to mind India's gracious message to the British nation of good will and fellowship which greeted my return in February 1912 after the solemn ceremony of my Coronation Durbar at Delhi, and I find in this hour of trial a full harvest and a noble fulfilment of the assurance given by you that the destinies of Great Britain and India are indissolubly linked.

J. B. WOOD,

Secretary to the Government of India.

535. Reports and Returns.—The Government of India have approved the correction to Item 103-A, of India Army Form Z-2000, published as an appendix to this order.

2. This correction will appear in due course in the Quarterly Appendix to India Army Orders.

536. Field Service Regulations, Part II, Indian Supplement, 1914.—With reference to India Army Order No. 426 of 1914, it is notified for information that Appendix XIV of this Supplement has been approved by Government* and will be issued to Divisions and Independent Brigades on the following scale:—

200 copies per Independent Brigade.

Necessary distribution will be made by Divisions and Independent Brigades on the scale laid down in the detailed distribution list of General Staff Branch War and Training Manuals, referred to in India Army Order No. 267 of 1914.

(6) A surplus of Indian officers and non-commissioned officers caused by the arrival of a draft or the return to duty of missing or wounded men, will be absorbed into the next vacancies as they occur.

(7) An Indian officer or non-commissioned officer who, under the provisions of this order, accepts promotion in a unit other than his own, may, if required, be held to serve permanently in the unit in which he receives such promotion.

In cases of doubt His Excellency the Commander-in-Chief in India will decide in which unit such Indian officer or non-commissioned officer will be required to serve.

562.* Insurance Premia.—It is notified that responsibility rests with officers and others concerned to advise their agents to pay war risks premia on life insurances. For some time agents will be unable to ascertain names of individuals detailed for field service.

563. Pay and Allowances.—It is notified for information that the Government of India have made arrangements for funds required for the pay, etc., of troops in the field with Indian Expeditionary Force "A" being issued in sterling or French currency by the Military Accounts Department. There will thus be no necessity for gold to be demanded from Treasuries in India by British troops and others proceeding with the oversea expedition.

564. Equipment—Artillery.—The cover of the G. S. Wagon has been found to be liable to be cut by the rear wagon wheels. To prevent this it is necessary that the rope lashings be brought in over and through the raves to the hooks to which they are secured. The cover will thus be over the rava instead of outside it.

VIII — British Gold at the Front — It has been brought to notice that gold is not infrequently taken to France by officers and others proceeding on active service, it is notified for general information that such a practice is both unnecessary and highly undesirable. Ample official facilities exist for the provision of funds to troops on landing. If it is considered necessary to take some money, it should be very little, and preferably notes. Money so taken should be exchanged through an officer of the Army Pay Department, not through a money-changer or tradesman. Immediately units reach their concentration camps in France they will be visited by an officer of the Army Pay Department for the purpose of exchanging English money for French currency. Individual officers should apply to the cashier at the port of disembarkation.

General Officers Commanding and Officers Commanding units will take special steps to ensure that this Order is brought to the notice of all ranks under their command.

2. Effects for despatch from Karachi can still be forwarded to the Embarkation Commandant who will hand them over to the Eastern Express Company in accordance with their offer of free transit as notified in India Army Order No. 202, dated 3rd May 1915.

507. Passages—Regulations.—With reference to paragraph 83 (i) (2), Army Regulations, India, Volume X, it has been decided that, for movements within Indian limits since the outbreak of the present war, officers invalided to India from field service (including operations on the frontier) shall be allowed:—

2. This decision will apply to any similar cases arising during the continuance of the present war.

583. Military Expenditure.—The following letter from the Secretary to the Government of India, Army Department, is published for general information:—

I am directed to inform you that His Majesty's Government have decided to place a heavy burden on the Nation in order to meet the enormous expenses of the war, the means required to carry it to a successful conclusion shall be always forthcoming.

This warning is especially applicable to India in cases where the expenditure on any measure or operation is debitable to the Imperial Government. The necessity for economy in matters connected with army expenditure debitable to Indian revenues has already been pointed out in Army Department letter No H-968, dated the 19th September 1914, to which attention is again invited, in order that the Imperial aspect may not be overlooked.

2 In time of peace the interests of economy, while entrusted in various degrees to administrative and other officers, are also safeguarded by various checks and limitations. During war, however, not only are these limitations to a certain extent removed, but the total expenditure is on a vastly larger scale. The possibilities of economy open to officers are consequently increased, and the elimination of ————— of particular

3 The Government of India therefore desire to impress upon General Officers Commanding Divisions and Independent Brigades and all heads of departments the need for the ————— administration, is to be avoided and the Government of India confidently rely on all General and other officers to co-operate with them to this end

584 Engineers—Warrant and Non-Commissioned

Army Department No H 5214 dated 4th October 1915
Officers—The Government of India have approved of the following rules for the promotion of Royal Engineer non-commissioned officers serving in Sapper and Miner units (other than Defence Light Sections) on field service to the rank of Company Serjeant-Major, Royal Engineers, and Company Serjeant-Major of Sappers and Miners, as a temporary measure during the war —

- (a) On definite information of a death vacancy.

584

25th Oct.
1915

585

25th Oct.
1915.

(b) On definite information of a man being made a prisoner of war.

(c) After the lapse of one month, should a vacancy still exist, in place of a missing man.

2. Should a vacancy in the rank of a Company Serjeant-Major occur on service, it should be filled by the promotion of a non-commissioned officer on the roster maintained at the headquarters of the Sapper and Miner Corps concerned, and such promotion, under these rules, will not involve a change of station, unless on account of trade or other special qualifications.

3. It is not intended that these orders should in any way affect the power of the General Officer Commanding a force in the field to promote a Royal Engineer non-commissioned officer for distinguished conduct in the field; such promotion may be to any rank which may be held by a Royal Engineer non-commissioned officer doing duty with a field company of Sappers and Miners, and shall be irrespective of any time-scale of promotion. A non-commissioned officer promoted in these circumstances to the rank of Company Serjeant-Major in the Sappers and Miners, will be borne supernumerary in his rank until absorbed.

585. are detailed in Tables I, II and III annexed

3 From the establishment to be maintained in India, after deducting the number present with the field companies, 23rd Fortress Company, defence light, and other special sections remaining in India, depot companies, each of the same establishment of fighting men and followers as a field company of Sappers and Miners, will be formed in accordance with the following instructions

4. The present depot companies ("B," "D" and "F") will, after adjustment to the new establishment of a depot company, be called —

"B. 1" (Depot) Company, 1st King George's Own Sappers and Miners

"D. 1" (Depot) Company, 2nd Queen Victoria's Own Sappers and Miners

These 10 are those required for the duties of storemen, clerks, assistant to armourer, and schoolmasters, orderlies, etc., *vide* India Army Order No. 587 of 1914. At the discretion of the commandant the number of trained sappers per depôt company may be increased to 20 when necessary.

7. As soon as the establishment of a depôt company as above, is exceeded by the arrival of recruits, a second depôt company called "B. 2," "D. 2" or "F. 2," as the case may be, will be started. This company should again have the same establishment as a field company and should, like "B. 1," "D. 1" and "F. 1," have all its sappers recruits, except a maximum of 20 trained men for the duties previously mentioned in paragraph 6. As soon as 40 recruits over those required for the first depôt company are enlisted, half the full establishment of the Indian officers and non-commissioned officers of a depôt company should be appointed, and, as soon as 120 recruits are procured, the whole. The subadar will be appointed when 120 recruits have been procured.

8. As soon as the second depôt company is complete, another ("B. 3," "D. 3," "F. 3") will be formed under the same conditions as the second depôt company, and the formation of additional companies will be continued until the full necessary number of recruits is provided for.

9. A new depôt company may be formed without a driver establishment if the full number of drivers is either not wanted or not forthcoming.

10. The establishment of each depôt company will include two British officers and two British non-commissioned officers if available. The company commander and one British non-commissioned officer will be appointed as soon as the new company numbers 10 recruits, the company officer and the junior British non-commissioned officer being added when the number of recruits has risen to 120. Staff pay as company commander and company officer respectively will be admissible for the two officers.

11. The following personnel, which is at present authorised for the existing dépôt companies, will be distributed among the new dépôt companies within their new establishments —

12 The Indian officers appointed in order to complete establishments will be permanent promotions. The Indian non-commissioned officers in "B 1," "D 1" and "F 1," companies will be permanent promotions, but those in the additional depot companies will hold temporary rank only, but will draw full pay of the rank. The permanent non-commissioned officers of "B 1," "D 1" and "F 1," companies may at the discretion of the commandants be distributed through the other depot companies.

13 Pensioners may be employed, at the discretion of the Officer Commanding a Corps of Sappers and Miners, to fill the position of Indian officers, non-commissioned officers or trained sappers in the depot companies or reservists unfit for active service, but fit for such work, may be retained.

14 If owing to drafts having been taken from it a field company remaining in India is under strength to the extent of one section, the non-commissioned officers of one section or as many of " " " " service " " " " company as par " " " " to one jemadar " " " " field company when a field company remaining in India has been reduced to half its ordinary establishment.

Under (b) *delete* the word "Mediterranean" in line 2, and for the letter "L" in line 2 *substitute* the letter "Z."

636. Re-engagement, Territorial Force—As some doubt has arisen on the terms of the declaration of a soldier of the Territorial Force on re-engagement, the Army Council has intimated that if any man signs Army Form W-8126 he is only bound for the duration of the war at the termination of which he will be discharged with all convenient speed, and his obligation does not demand his retention in the Territorial Force for any length of time after the end of the war unless he elects to stay longer. There is however no objection to the Army Form W-8126 being altered in manuscript, with the soldier's consent, to make his position quite clear, by inserting "after 'termination of the war' the words 'if I so desire,' but on no account is any other amendment to be made on the form.

Army Form E-611 may continue to be used, but only for a man who elects to re-engage for the full period of four years without any proviso.

INDIA ARMY ORDER

BY

**HIS EXCELLENCY THE COMMANDER-IN-CHIEF
IN INDIA***Army Headquarters, Simla, the 2nd December 1915*

Complimentary—His Excellency the Commander-in-Chief directs the publication of the message below from His Majesty the King-Emperor to the troops of the Indian Army Corps leaving France which was delivered by His Royal Highness the Prince of Wales on November 26th

‘ Officers, non-commissioned officers and men of the Indian Army Corps, more than a year ago I summoned you from India to fight for the safety of my Empire and the honour of my pledged word on the battlefields of Belgium and France. The confidence which I then expressed in your sense of duty, your courage and your chivalry, you have since then nobly justified

I now require your services in another field of action, but before you leave France I send my dear and gallant son the Prince of Wales, who has shared with my armies the dangers and hardships of the campaign, to thank you in my name for your services and to express to you my satisfaction

British and Indian comrades in arms yours has been a fellowship in toils and hardships, in courage and endurance, often against great odds, in deeds nobly done in days of ever memorable conflict. In a warfare waged under new conditions and in peculiarly trying circumstances you have worthily upheld the honour of the Empire and great traditions of my Army in India

I have followed your fortunes with deepest interest and watched your gallant actions with pride and satisfaction. I mourn with you the loss of many gallant officers and men. Let it be your consolation, as it was their pride, that they freely gave their lives in a just cause for the honour of their Sovereign and the safety of my Empire. They died as gallant soldiers, and I shall ever hold their sacrifice in grateful remembrance

You leave France with a just pride in the honour of deeds already achieved and with my assurance of confidence that your proved valour and experience will contribute to further victories in the fields of action to which you go.

I pray God to bless and guard you and to bring you back safely, when the final victory is won, each to his own home—there to be welcomed with honour among his own people."

Adjutant General in India.

INDIA ARMY ORDER

HIS EXCELLENCY THE COMMANDER-IN-CHIEF
IN INDIA.

Army Headquarters, Simla, the 3rd December 1915

National Health Insurance—1 From 3rd January 1916 the commencement of the next insurance half year), stamps and cards will cease to be used for insurance contributions of soldiers, but all stamping outstanding for any period before that date will be completed

2 The procedure for recording the contributions will then be as follows —

I—Soldiers other than those serving with the Expeditionary Forces.

(a) The soldier's contribution (1½d for each week) will be recovered from him by a stoppage through the pay and mess book, India Army Form A -1, or A -1(a)

(b) The deductions will be made by account periods, and one entry will be made in the appropriate column for each insurance man, representing the contributions for each week on the Monday of which he is in the payment of the company

(c) The total of the stoppages for contributions will be shown on the credit side of the Statement of Receipts and Expenditure (Form 3) under the head "(2) Health Insurance Contributions," and, as the money is not actually paid by the company officer, a contra entry will be made on the Dr. side under "(3) Other items due to the public." "National Health Insurance Commission" The pay and mess book [India Army Form A -1, or A -1 (a)] will be suitably amended when reprinted

(d) It will not be necessary for company, etc., commanders to make any entry in Form 3, Statement of Receipts and Expenditure of the pay and mess book in respect of the portion of the Health Insurance contribution payable by the Government of India.

(e) In cases where a pay and mess book is not used, the stoppages for contributions will be dealt with similarly through the pay list or pay bill.

(f) The total amount of stoppages as shown on the debit side of the Statement of Receipts and Expenditure, Form 3, [vide clause (c) above] will be credited by the Divisional Disbursing Officer as a receipt under the head "His Majesty's Indian Government, London "National Health Insurance Contribution" in the Abstract of Receipts and Charges, India Army Form A.-651.

An equivalent amount on account of the Government contribution will then be charged in the same form under the head "Government Contribution, National Health Insurance" and a *per contra* credit taken on the receipt side under a similar head. These credits will in the ordinary course be passed on to His Majesty's Indian Government and in support thereof a list of the contributors should be sent in the first instance, any modifications thereto being intimated with subsequent remittances.

This list, which should also shew the amount of the remittance, should be endorsed with a certificate to the effect that the amount remitted represents the total contribution payable for all insured men under this section.

II — *Soldiers serving with the Expeditionary Forces.*

(a) The insurance of soldiers serving with the Indian Expeditionary Forces will continue to be dealt with by the Disbursing Officer at the Base, who will charge the amount of the contribution against each soldier's pay account.

(b) When a soldier proceeds to an Expeditionary Force, a note of the date to which recovery has been made through the pay and mess book will be made in his pay account, in order that the charge to the end of the half year may be correctly assessed. When he returns from an Expeditionary Force recovery for the broken period will be made in his pay

account from the beginning of the half year up to the date from which deductions begin to be made in the pay and mess book (or pay list if there is no pay and mess book) of the unit to which he is attached for pay. In the case of a soldier becoming non effective, recovery will be made in the month in which the soldier's pay account is closed. 4 All unstamped cards will be wasted. In the exception-
the blank cards have been
for any period before 3rd
the company, etc., com-
mander should apply for a card specially to Army Head-
Quarters.

IV — Recruits

5 Officers commanding companies, etc., will take steps to insure that each recruit on first joining is furnished with a special postcard (Army Form O 1847), on which he should report his enlistment to the society of which he is a member, or if he is not a member of a society to the Insurance Commissioners, London S W.

Applications for supplies of Army Form O -1847 should be addressed to the Contractors for Printing Government of India Forms, Calcutta.

6 Any recruit specially enlisted for the period of the war in the New Armies, or any recruit in the Territorial Force, who was not insured before enlistment will be given an opportunity for exercising his option to remain uninsured (*see* Army Order 378 of 1914). Do not wish to be insured', add his signature and return the card to the company, etc.,

commander, who will send it to the Insurance Commissioners, London, S.W. [*This cancels paragraph 7 of the memoranda attached to Adjutant General's letter No 25860-1 (A.G.-I), dated the 27th February 1915, to all General Officers Commanding Divisions, Divisional Areas and Independent Brigades*]

V.—Discharge, desertion or death

7. *Discharge*—In order to ensure that the soldier on discharge is in a position to claim the benefits to which he is entitled under the Insurance Act, it is necessary that he shall have documentary proof that contributions have been paid during his period of service. The stamped card formerly handed to him on discharge provided this evidence. As this will not be available in future a separate card has been designed (Army Form O.-1845) showing briefly the period of his service and that insurance has been paid up to the date of discharge. These cards will be prepared by the officer commanding the company, etc., in every case in which a man has been insured during service, and send with the man's last pay certificate (India Army Form A.-443) to the Divisional Disbursing Officer for transmission to the officer carrying out the discharge, to be passed to the soldier with the discharge certificate (Army Form B.-2079). A card will not be issued in the case of a man who was not insured before enlistment and has elected to remain uninsured during service.

8. *Death or desertion*.—Similar cards (Army Form O.-1844) will be prepared by the officer commanding the company, etc., directly the death or desertion of a soldier is notified, and forwarded through the Divisional Disbursing Officer to the Insurance Commissioners, London; S.W.

VI.—Exemptions.

9. Any exemption claimed under paragraph 6 of this India Army Order or under regulations previously in force will be noted against the soldier's name in the pay and mess book (or pay list or pay bill if there is no pay and mess book) of the company, etc., with which he is serving, if not forming part of an Expeditionary Force.

10 If the soldier is transferred the exemption will be noted on India Army Form A-443, for the information of his new company, etc., commander.

11. In all cases the exemption will be conspicuously recorded in the pay and mess book and pay list [India Army Forms A-1, or A-1(a) and A-8 or A-9]

VII.—Amendments to the Provisional Regulations for the Application of the National Health Insurance Act to Serving Soldiers in India

Paragraph 9—The clauses beginning “In the case of men on the Unattached List” and “In the case of men employed in the Civil or Public Works Department” are cancelled and the following substituted —

“In the case of men on the Unattached List or employed in the Military, Civil and Public Works Departments, the man's contribution of 1½d per week will be deducted from his pay and this sum *plus* a further sum of ½d per week, representing the contribution payable by the Government of India will be remitted in the usual course to His Majesty's Indian Government”.

In the clause beginning “In the case of men sent to England for discharge”, *alter* the comma after “certificates” in line 4 into a full stop, and *delete* the remainder of the clause.

For the last clause of this paragraph *substitute* the following “In all cases of men sent to England, whether on furlough or for discharge or transfer to the Army Reserve, arrangements will be made to deduct contributions up to and for the week in which the men disembark in England. In the case, however, of Indo-Colonial reliefs or any other in which the pay for the period of the voyage is borne by Imperial revenues, contributions will only be made up to and for the week in which the men embark”. account from the beginning of the half year up to the date from which deductions begin to be made in the pay and mess book (or pay list if there is no pay and mess book) of the unit to which he is attached for pay. In the case of a soldier becoming non-effective, recovery will be made in the month in which the soldier's pay account is closed. 1. All unstamped cards will be wasted. In the exceptional case where it is found, after the blank cards have been disposed of, that contributions due for any period before 3rd January 1916, have not been paid, the company, etc., commander should apply for a card specially to Army Headquarters.

IV.—Recruits.

5. Officers commanding companies, etc., will take steps to insure that each recruit on first joining is furnished with a special postcard (Army Form O.-1847), on which he should report his enlistment to the society of which he is a member, or if he is not a member of a society to the Insurance Commissioners, London, S. 1915.

V — Discharge, desertion or death

7 *Discharge* — In order to ensure that the soldier on discharge is in a position to claim the benefits to which he is entitled under the Insurance Act, it is necessary that he shall have documentary proof that contributions have been paid during his period of service. The stamped card formerly handed to him on discharge provided this evidence. As this will not be available in future a separate card has been designed (Army Form O 1815) showing briefly the period of his service and that insurance has been paid up to the date of discharge. These cards will be prepared by the officer commanding the company, etc., in every case in which a man has been insured during service, and sent with the man's last pay certificate (India Army Form A 143) to the Divisional Disbursing Officer for transmission to the officer carrying out the discharge, to be passed to the soldier with the discharge certificate (Army Form B 2079). A card will not be issued in the case of a man who was not insured before enlistment and has elected to remain uninsured during service.

8 *Death or desertion* — Similar cards (Army Form O 1814) will be prepared by the officer commanding the company on direct or indirect evidence of the death or desertion of a soldier. It is notified, and forwarded through the Divisional Disbursing Officer to the Insurance Commissioners, London, S W.

10. If the soldier is transferred the exemption will be noted on India Army Form A-143, for the information of his new company, etc., commander.

11. In all cases the exemption will be conspicuously recorded in the pay and mess book and pay list [India Army Forms A-1, or A-1(a) and A-8 or A-9].

VII.—*Amendments to the Provisional Regulations for the Application of the National Health Insurance Act to Serving Soldiers in India.*

Paragraph 9.—The clauses beginning "In the case of men on the Unattached List" and "In the case of men employed in the Civil or Public Works Department" are cancelled and the following substituted:—

"In the case of men on the Unattached List employed in the Military, Civil and Public Works Departments, the man's contribution of $1\frac{1}{2}$ d per week will be deducted from his pay and this sum plus a further sum of $\frac{1}{2}$ d per week, representing the contribution payable by the Government of India will be remitted in the usual course to His Majesty's Indian Government".

In the clause beginning "In the case of men sent to England for discharge", alter the comma after "certificates" in line 4 into a full stop, and delete the remainder of the clause.

For the last clause of this paragraph substitute the following "In all cases of men sent to England, whether on furlough or for discharge or transfer to the Army Reserve, arrangements will be made to deduct contributions up to and for the week in which the men disembark in England. In the case, however, of Indo-Colonial reliefs or any other in which the pay for the period of the voyage is borne by Imperial revenues, contributions will only be made up to and for the week in which the men embark". IN INDIA

Simla, the 25th December 1915

The following gracious message from His Imperial Majesty the King-Emperor is published for the information of the Army in India —

BUCKINGHAM PALACE,

23rd December 1915.

Another Christmas finds all the resources of the Empire still engaged in war and I desire to convey, on my own behalf and on behalf of the Queen, a heartfelt Christmas greeting and our good wishes for the New Year to all who, on sea and land, are upholding the honour of the British name.

In the officers and men of my Navy, on which the security of the Empire depends, I repose in common with all my subjects, a trust that is absolute.

On the officers and men of my Armies, whether now in France, in the East or in other fields, I rely with an equal faith of confidence that their devotion, their valour and their self-sacrifice will, under God's guidance lead to victory and an honourable peace.

There are many of their comrades now, alas, in hospital and to these I have men also I desire, with the Queen, to express our deep gratitude and our earnest prayers for their recovery.

Officers and men of the Navy and of the Army, another year is drawing to a close, as it began, in toil, bloodshed and suffering, but I rejoice to know that the goal to which you are striving draws nearer into sight.

May God bless you and all your undertakings

INDIA ARMY ORDER

HIS EXCELLENCY THE COMMANDER-IN-CHIEF
IN INDIA.

*Army Headquarters, Simla, the 20th November
1914.*

It is with the deepest regret that His Excellency the Commander-in-Chief announces to the Army in India the death, on the 14th instant of Field Marshal Earl Roberts, V.O., K.G., K.P., G.C.B., O.M., G.C.S.I., G.C.I.E., V.D.

Lord Roberts served in India for 41 years and the fame of his deeds in this land is known to every soldier. After he had left India his name became even more famous, but his interest in India and her soldiers never flagged. He was distinguished by his affection for the soldier, whether British or Indian, and he constantly tried to increase the soldier's welfare and happiness. He died full of years and honours, while visiting at the front the Troops whom he loved so well and whom he had so often led to victory. His life and death stand forth as a most noble example for all soldiers.

The Commander-in-Chief has conveyed on behalf of himself and all ranks of the Army in India their deepest sympathy with the Countess Roberts and the other members of the late Field Marshal's family
